ANTIOX

FOR DOGS AND CATS

- Supports immune system, circulatory functions, and skin health in cats and dogs.
- **Recommended for:**
  - Animals exposed to environmental toxins (car exhaust, second hand smoke, carpet fresheners etc.)
  - Animals that need joint, immune, circulatory, and vascular support.
- **Antiox** is standardized to yield 95% proanthocyanidins per capsule.
- Proanthocyanidins are a special type of water-soluble bioflavonoids that are potent antioxidants.
- Proanthocyanidins help to normalize the release of histamine from mast cells thereby reducing the adverse effects of histamine.
- Proanthocyanidins support capillary strength.
- Available in 3 different milligram levels.
- **Directions For Use:**
  10 mg formula: Give 2 capsules daily, per 10 lbs of body weight for 7 - 10 days. Then give 1 capsule per 10 lbs of body weight daily.

  50 mg formula: Give 2 capsules daily, per 50 lbs of body weight for 7 - 10 days. Then give 1 capsule per 50 lbs of body weight.

  100 mg formula: Give 2 capsules daily, per 100 lbs of body weight for 7 - 10 days. Then give 1 capsule per 100 lbs of body weight.
- **Antiox for:**

Cats - 10 mg	070C744.060 (60 Capsules)
Dogs - 10 mg	0700744.060 (60 Capsules)
Dogs - 50 mg	0700745.060 (60 Capsules)
Dogs - 100 mg	0700746.060 (60 Capsules)
