

# DAILY BEST

## FOR PUPPIES

- **Daily Best for Puppies** is a full spectrum multiple vitamin/mineral formula that provides needed support for a healthy, growing puppy.
- **Daily Best for Puppies** is specifically formulated with nutrients not found in other puppy formulas such as fish oil containing DHA for brain health and development, Vitamin C for immune system support, Lactobacillus acidophilus for G.I. tract health and Biotin for healthy skin and coat.
- **Daily Best for Puppies** is recommended for puppies up to 1 year. Your puppy will love the great chicken liver flavor.
- **Daily Best for Puppies Supports:**
  - Brain function and eye health
  - Bone health
  - Correcting dietary deficiencies
  - Digestive support
  - Growth and longevity
  - Skin and coat health
  - Young puppies of large breeds during rapid growth periods
- **Brain and Eye Health**
  - Fish oil contains DHA, an Omega-3 fatty acid that is a major structural fat found in brain and retinal tissues. It is required for neurological development and brain function and is needed for healthy vision.
  - Choline supports brain health, learning and memory.
- **Bone Health and Structural Support**
  - Calcium, Magnesium, Phosphorus and Vitamins A, D, C and E are required for healthy bones. They work together to build and help maintain bone strength as well as support bone growth. Deficiencies can lead to poorly formed bones.
- **Digestive Support**
  - Lactobacillus acidophilus is a probiotic that supports G.I. tract health, digestion and assimilation of food factors.
  - Riboflavin (Vitamin B2) is required for the health of the mucus membranes in the digestive tract.
- **Growth, Longevity and Immune System Support**
  - Vitamins are essential to life. They contribute to good health by regulating many biochemical processes. Every living cell in the body depends on minerals for proper function. They support the formation of blood and bone, the proper composition of body fluids and help to maintain a healthy nervous system. Amino acids support growth and development of all body tissues and antioxidants help to support immune system function all of which is required for growth and longevity.
- **Skin and Coat Health**
  - Essential fatty acids support skin tissue and texture which contributes to a soft, healthy, shiny coat.
  - Biotin is a B vitamin that is vital to skin health.
- **Directions For Use:**  
Give 1 tablet per 20 lbs of body weight, daily.
