

# GARDEN BITES<sup>™</sup> FOR DOGS

## Vegetarian Treats for Dogs

Nearly 50 percent of the dogs in North America are overweight. The main reason for that are the unhealthy treats we love to feed them. Cheap treats often contain “filler” ingredients like white flour, corn or soy which can cause gastro-intestinal upset and skin problems. A snack high in refined sugar puts a huge load on the pancreas which can lead to health problems and weight gain.

**Treat your canine companions with healthy snacks or train them with healthy treats. Your dog will thank you!**

### GARDEN BITES
