

IMMUNE SUPPORT FOR DOGS AND CATS

- Supports immune system function and performance in dogs, cats and birds.
- DMG is an adaptogen that helps the body cope with various forms of stress caused by aging, poor oxygen availability, free radical damage and a weakened immune system.
- DMG supports performance by enhancing circulation, efficient oxygen utilization, and muscle recovery. DMG supports stamina through its ability to lower lactic acid build-up.
- DMG helps to support and strengthen the immune response when challenged by foreign antigens and microorganisms. Clinical studies show that it supports lymphocyte (T and B cell) and antibody production.
- DMG supports the production of intracellular glutathione and SAME.
- DMG supplies methyl groups for building and detoxifying many constituents in the body. It also acts as an antioxidant to protect the body from free radical damage.

Recommended for:

- ☐ Immune System Support
- ☐ Liver Metabolism and Detoxification (methylanon)
- ☐ Performance & Stamina (circulation, O₂ utilization)
- ☐ Muscle Recovery (lactic acid)

Directions For Use:

Cat: Give 0.5 ml, twice daily for two weeks, then 0.5 ml daily.

Dogs:

- Up to 20 lbs: 0.5 ml daily.
- 21 to 40 lbs: 1.0 ml daily.
- 41 to 80 lbs: 1.5 ml daily.
- 81 to 100 lbs: 2.0 ml daily.
- Over 100 lbs: 3.0 ml daily.

Give suggested level twice per day for two weeks, then once per day. For best results, divide daily amount between AM and PM.
