

BREATH BARS FOR DOGS

A formula designed to freshen breath and reduce fecal odor

About Breath Bars:

BREATH BARS is a formula designed to freshen breath and reduce fecal odor in dogs.

BREATH BARS combines specific ingredients that help improve fecal quality, clean the blood, reduce the frequency of flatulence, and freshen breath. **BREATH BARS** unique ingredients include the Champex™ brand Champignon mushroom, extensively studied for its ability to suppress odor-causing chemicals in the intestines, and pumice, a natural abrasive that reduces plaque and bacteria that can lead to doggy breath.

BREATH BARS

- Reduces foul breath
- Reduces fecal odor
- Helps maintain a clean intestinal environment

ABOUT THE FORMULA

- Spirulina and parsley are great sources of the deodorizing and cleansing Chlorophyll.
- Champignon Mushroom Extract (Champex™ brand) has been extensively studied for its ability to reduce odors and improve intestinal conditions, thereby stopping foul breath at the source. Champex™ suppresses the generation of toxic chemicals.

- Pumice is an all-natural abrasive with a gritty texture ideal for polishing surfaces. The outer layer of the teeth (enamel) is the hardest substance in the body. When the surface becomes pitted or damaged, plaque and bacteria have places to hide and cling to. Pumice polishes the teeth, cleansing the groove and smoothing the surface.
- Cinnamon Powder supports a healthy bacterial balance in the mouth.

ABOUT BAD ODORS

There are two major causes of mouth odors: decaying debris between teeth, on the mucous membrane or in the esophagus; and foul-smelling compounds absorbed from the intestinal tract into the blood, then breathed out from the lungs as foul breath. Foul mouth odors are a mixture of mouth debris and compounds in the GI tract expelled through the lungs.

More than 100 trillion intestinal bacteria create odorous chemicals by decomposing the proteins and fats in ingested foods. The major putrefying bacteria Welch bacillus and Escherichia coli create rotten-smelling intestinal chemicals, which are the origin of fecal odors.

Active Ingredients Per Bar:

Spirulina	100 mg
yielding Chlorophyll	.2 mg
Parsley	.70 mg
Champignon Mushroom Extract (Champex™ brand)	.30 mg
Yucca Schidigera extract	.10 mg
Cinnamon powder	.10 mg

Inactive Ingredients: apple pectin, arabic gum, brewers yeast, canola oil, chicken liver flavor, citric acid, glycerin, mixed tocopherols, oat flour, oat meal, propionic acid, pumice, rosemary extract, rye flour, silicon dioxide, sorbic acid, soy lecithin, vegetable oil, whey.

Directions for Use:

Give 1 stick daily.
Give 2 sticks daily for dogs over 50 lbs.

For best results use daily and give between meals.
