

L-LYSINE FOR CATS

A DAILY SUPPLEMENT TO SUPPORT IMMUNE HEALTH

WHY IT WORKS

- ⊕ Supports normal antibody, enzyme and hormone production
- ⊕ A natural competitor for L-Arginine

FEATURING 250 MG OF L-LYSINE

L-LYSINE for cats is a daily supplement for your cat to support immune health. The formula also promotes tissue repair and collagen formation. **L-LYSINE** is an essential amino acid used by the pet's body as a building block for many functions important to growth and maintenance of health.

Recommended to support:

- ⊕ Immune system function
- ⊕ Collagen formation
- ⊕ Tissue integrity
- ⊕ Antioxidant activity
- ⊕ Antibody and lymphocyte production

L-LYSINE for cats is safe for kittens and senior cats. It's the perfect supplement for multi-cat households and boarding. Delivered in a delicious chicken liver flavored chew your cat will **love**.

About the formula:

- ⊕ L-Lysine is an amino acid that supports normal antibody, hormone and enzyme production.
- ⊕ It also supports collagen formation and tissue integrity.
- ⊕ L-Lysine competes with L-arginine, which is the amino acid required by the herpes virus to replicate.

Guaranteed Analysis per Chew (1.5 g): Represents Minimum Levels Unless Otherwise Stated:

Moisture (max)	11.1%
