

# SKIN+COAT FOR DOGS

Supports a Shiny Coat and Healthy Skin

**SKIN+COAT** for Dogs supports a luxurious coat and minimizes shedding. This tasty treat is recommended for dogs of all sizes, breeds, and ages. It is the perfect treat for dogs with common allergens.

## SKIN+COAT Chews are designed

### to support:

- Coat sheen, luster and proper skin tone
- Skin comfort for dogs
- Minimize shedding
- Strengthen hair shaft and follicle

## ABOUT THE FORMULA

**SKIN+COAT** contains 14 ingredients that support conditioning of a healthy coat in dogs

- **Flax seeds** are rich in ALA (alpha-linolenic acid), an omega-3 fatty acid. Omega-3 fatty acids help support skin comfort. Flax seeds also contain lignans, which may have antioxidant actions, as well as vitamins B1, B2, C, E, beta-carotene, and the minerals iron, zinc, potassium, magnesium, phosphorus, and calcium.
- **Safflower oil**, is an excellent source of Linoleic Acid (Omega-6 fatty acid), which supports skin tone and elasticity. Linoleic Acid is an essential fatty acid needed by the skin and supports the texture and luster of the coat. Incorporation of fatty acids into cell membranes supports the structural integrity of the skin and coat.

## BONE-SHAPED CHEWS

- **Vitamin E** (natural) is essential for skin health. It is an antioxidant that neutralizes free radicals that could damage skin.
- **A veggie blend** of dried carrots, dried alfalfa, kale, and dried kelp are wholesome sources of nutrients that are important for skin health. Kelp and alfalfa support mineral balance which is necessary for good skin tone.

## Bad hair day?

### Feeding Directions:

Feed 1 chew per 25 lbs body weight, daily.

### Guaranteed Analysis Represents Minimum Levels Per Chew (3.5g):

Crude Protein (min)	9.0%
Crude Fat (min)	12.0%
Crude Fiber (max)	9.0%
Moisture (max)	10.0%
Linoleic Acid (min 5.7%) (an Omega 6 Fatty Acid)	200 mg
Vitamin E (min 14000 IU/kg)	50 IU
*Omega 3 Fatty Acids (min 1%)	38 mg
*Omega 9 Fatty Acids (min 1.4%)	50 mg

\*Not recognized as an essential nutrient by the AAFCO Dog Food Nutrient Profiles.
